Another innovation from Vascular Solutions—Vari-Lase Short Kit

The Vari-Lase Short Kit is an endovenous laser kit designed specifically for the treatment of perforator veins.

Designed to make access into these small vein segments easier, the Vari-Lase Short Kit features:

- Unique 0.018" guidewire with 1cm floppy tip for easy access and sheath support in perforator veins
- 10cm micro-introducer sheath for flexible, low-profile placement of Platinum Bright Tip fiber into perforator veins
- 21G needle in both standard 7cm and short 4cm length for ease of use with perforator veins
- Highly echogenic Platinum Bright Tip fiber specifically marked for use with micro-introducer sheath
- Fiber lock pre-positioned on Platinum Bright Tip fiber to conveniently secure the fiber to the micro-introducer sheath
